

Foundation Public School has grown and evolved for 35-plus years, passing many milestones and forging traditions along the way.

Foundation Public School is one the most prestigious institutions of primary and secondary education in Karachi, established in 1981 with only 12 students. Since then, FPS has sustainably grown into a well-integrated network of 12 campuses. It is acclaimed for imparting a progressive 21st century education with its modern curriculum, and state-of-the-art and purpose-built campuses.

### Our Logo, Our Pride

The motto of the school 'Knowledge Is Power' can be seen on its insignia. Encompassed on a shield is an eagle as it inspires and symbolizes intelligence and signifies a flight towards freedom and knowledge.  
image3

The waves on the eagle's body represent the five rivers of Pakistan, a reminder that education should be spread all over the country. The eagle is perched on three pillars which denote 'Unity, Faith and Discipline' as advised by the Father of the Nation, Mr. Mohammad Ali Jinnah. Within the pillars are the abbreviated letters FPS which represent Foundation Public School.

### Academics Overview

The curriculum at Foundation Public School focuses on a rigorous and creative academic foundation that aims at developing intellectual curiosity, critical thinking, and problem-solving skills amongst our students.

Our renowned curriculum and devoted faculty, whose tenure averages 10 years, uphold the high standards we have maintained for nearly four decades.

At each grade level, students are challenged academically and personally to learn and grow. Our academic program is designed to teach students the knowledge, skills, and attitudes that will best prepare them for success in a global society.

Our coursework also emphasizes an ethic of empathy and social responsibility. Students continually draw connections between what they learn and real-world experiences.

## Innovative Curriculum & Teaching Methods

As an educational institution, we strive to keep abreast with a constantly changing world in order to impart an innovative, 21st century education to prepare our students for the future. As a result, our curriculum and pedagogical methods are continuously evolving and innovating. This unique approach moulds our students into lifelong, independent learners and confident leaders of tomorrow.

## STEAM

In addition to our special STEAM programme which focuses on Science, Technology, Engineering, Arts and Math in particular, we stress intensely on building strong literacy and language skills in our students from the very onset.

## Lifelong Learners

Learning is not only confined to a classroom as our diverse co-curricular activities enhance students' learning and assist them in understanding core skills and social values through engaging art, craft and drama activities along with our unique Pride Day, Spark and Mindfulness activities.

We also ensure to maintain an ardent connection with the parent community and keep them abreast with their child's progress at each stage.

No matter what career students ultimately pursue, they graduate FPS with the knowledge, skills and confidence to make a lasting impact on this world.
